The screenshot shows a "IMF Myeloma Manager Patient Flow Sheet" for "Test results for Michael S. Katz". The sheet includes sections for "Blood Counts", "Urinalysis", "Routine Chemistry", and "Other". There are numerous numerical entries in these sections, some with units like "g/dL", "mg/dL", and "mmol/L". A circular logo for "IMF Myeloma Manager" is located at the top left. Callouts numbered 1004 through 1102 point to specific entries in the "Blood Counts" section, such as Hemoglobin values (e.g., 13.7, 17.2) and other parameters like Potassium, Leukocytes, Neutrophils, Platelets, Red Blood Cells, White Blood Cells, and various fractions like Eosinophils, Lymphocytes, Monocytes, and Basophils.
